Introduction

For us, good isn't good enough. We aim to be the best at all that we do–to help clients realize their ambitions, make a positive difference in organizations, and to maximize their success.This drive fuels the commitment and humanity that run deep through our every action. That's what makes us truly different, not how big we are, where we are, nor what services we offer. What really defines us is our drive to make an impact that matters in Saudi Arabia. Specialty Experts is a brand led by a team of specialized partners and offers a wide variety of services to selected clients. The company is located in Riyadh and was founded in early 2019 in an effort to create a solid cybersecurity firm headed by native professionals.

Specialty Experts offers a range of top-notch services that unifies products, services, and partners, helping organizations to thrive with technology and protecting them against sophisticated threats across people, endpoints, networks, applications, and clouds. Furthermore, all of our services are provided by highly talented Saudi experts that have deep experience in cybersecurityand are equipped with industry certifications

CEO Message

Since our establishment in last 2019, we have been driven by passion and hard work, we help our clients build stronger, more secure, agile and innovative businesses. We look forward to the enormous opportunities that are emerging from the growing shift to digital business. We invest in new cyber & ICT solutions and acquisitions, build our capabilities, and develop our teams to ensure that we are well positioned to help clients explore the vast opportunity & perform securely & effectively. As an organization built on high-class operations,Specialty Experts brings Cyber & ICT technology to the market with the most complete value proposition in the industry. We simplify the complexities of the ICT industry, solving not only our customers' technology problems, but also their business challenges. We transform generic technology into customized business solutions, without complexity nor huge cost.

Yours faithfully,
CEO

Our Mission

To provide advanced & outstanding cybersecurity and technology services to our clients.

Our Vision

Achieving cybersecurity and information technology services providing excellence.

Our Values

Relationships

We build positive, long term relationships with our customers, joint venture partners, subcontractors, suppliers, and colleagues that are built on trust, respect, and collaboration.

Innovation

We believe technology can and should be a force for good and that meaningful innovation can and will contribute to a brighter world in big and small ways.

Diversity

We thrive on diverse voices. We engage our employees' and customers' experiences, strengths, and different points of view to inform, challenge, and stretch our thinking. This is how we innovate.

Culture

We believe that our culture of borderless collegiality is a competitive advantage for us, and we go to great lengths to nurture it and preserve it and to support our people.

Value

We play a critical role in helping both the markets and our clients operate more effectively. We consider this role a privilege, and we know it requires constant vigilance and unrelenting commitment

Ethics

We believe that nothing is more important than our ethics, and behaving with the highest levels of professionalism is fundamental to who we are. We demonstrate a strong commitment to our integrity, honesty, and fairness

QA Certification ISO 9001:2015

Quality Policy

"Specialty Experts commit to support it's clients with all cybersecurity & ICT innovative technology solutions. Specialty Experts shall provide reliable and efficient services to its Client Base whilst conforming to the Company's mission and vision and the required legal and security rules and regulations and to maintain customer satisfaction. In order to achieve this, we have implemented a fully integrated documented Quality Management System as per Quality International Standards, for which the CEO is ultimately responsible."

This QMS ensures that Specialty Experts can fulfill its contractual obligations by:

- Ensuring that all activities which directly affect the quality of service are carried out under strict controlled conditions.
- Close and continuous monitoring and analysis of quality indicators which provide the feedback to enable quality improvement, giving due regard to the human factor.
- Providing up to date instructions and training to all staff together with the promotion of quality awareness.
- The CEO ensures that this policy is communicated, understood and implemented at all levels.

Why
